## Description

Maritime Industrial Estate is comprised of light industrial terraced units, each constructed using steel portal frames. The exterior walls feature a combination of brick and blockwork alongside insulated steel sheeting, providing both durability and insulation. The estate is designed as a self-contained area with a one-way traffic system, ensuring smooth vehicle flow and safety.

Each unit benefits from its own separate pedestrian entrance that leads directly to a communal parking area, offering convenient access for occupants and visitors. Recently refurbished in 2023, the units now include modern LED lighting and electric roller shutters for enhanced security and efficiency. Additionally, the units are equipped with W.C. facilities for occupant convenience. Units 3 and 4 hold an EPC rating of B, reflecting its energy-efficient design and features.
